Wertschätzung für die Muttersprache

HORIZONTE

Project "It's language. We speak it. We embrace it. We respect it. For us, German is a living language," by Christian Kader

Can you imagine the following sentence: "In Bremen, four children were taken from their parents because of their family's religious beliefs." How do you feel about this sentence? Today, there are still many children and families around the world who are facing similar situations. The United Nations Convention on the Rights of the Child (UNCRC) guarantees all children the right to be protected from all forms of discrimination, but unfortunately, this right is not always respected. It is our responsibility to ensure that every child has the chance to grow up in a safe and supportive environment. Let's work together to make a difference and promote the rights of every child.
